Subject: Letter of support for 16 & 0 Bishops Lane subdivision
Date: Wednesday, May 10, 2023 9:19:30 AM

Dear members of the Planning Board:

I am writing in support of 16 & 0 Bishops Lane. I grew up at 248 South Street. I spent my whole childhood at 248 South Street. I am very familiar with the property on Bishops Lane. I feel that subdivision would not negatively impact Bishops Lane. It is my understanding that the developer Steven Young intends to repair/repave Bishop's Lane which is a treacherous road and a much needed fire hydrant would be added. Steven and his wife Caroline reside at 16 Bishops Lane and have done extensive renovations and restoring to the original house that are tasteful. I currently live in Crow Point where all the small cottages are being torn down and large imposing houses are being built which I feel is detrimental to our neighborhood. A subdivision that complies with all the Town's Bylaws-Laws and Zoning would add significant tax revenue to the Town and a welcome change to the Town where so many houses are being torn down and rebuilt that have non-conforming lots. It would be refreshing to have a subdivision with conforming lots. I believe it is a solid project that will benefit our town significantly.

Sincerely,

William H. Collins, III
