Subject: Re: re send

Dear Julie,

I am a resident at Lincoln School Apartments, 86 Central St, Hingham MA

The construction site mentioned above is located directly below my apartment. The peaceful existence I had known for the last 13 years is no longer. During the last year the daily disruption of large construction vehicles backing in and out, ledge being drilled through, moved out of the way several times and finally broken into smaller pieces, dust and dirt particles coming in my apartment, loud workers conversation and finally having a portable potty unit directly below me. Ofcourse, I now have the lighted sports complex to deal with, noise and bright lights that invade my bedroom. Prior to this property being sold my view included many beautiful mature trees and shrubs most of which have been removed to allow for a rear egress to the property. It's been an ongoing disruption which doesn't seem to have an end in site.

Thank you for the opportunity to have my concerns heard.

Karen Rein
