Subject: Pickle ball courts

Hi

I understand that the board is planning on voting on the pickleball courts approved at town meeting last year. I would respectfully vote to approve the 8 courts. There is a great demand for the courts. The money has been approved. A further reduction of the number would cause major problems with those looking to access them.

There will be plenty of parking especially since the senior center is not being built in the area.

Thank you for your consideration and hard work for the town.

Paul Gannon
