**Subject:** Pickleball Courts

I support the Pickleball Courts which were approved at the 2025 Town Meeting.

The area which was approved is an abandoned building which is not only an eyesore but also a safety issue. This can be replaced with beautiful courts.

The Bare Cove Recreation Park would have added value to have the new pickleball courts. This would enhance the area for all different groups. Not only will these courts help build community support for all different ages but also help create wellness for many members in the town with this ever growing sport.

Thank you.
