

August 8th, 2026

To the Town of Hingham's Planning Board,

Our property in Crow Point is on Paige Street but it also extends in the back to Howe Street. It was extremely upsetting on May 22, 2026 to see the new owners of 22 Howe Street clear cut the property. This is a very respectful neighborhood and the blatant disrespect for abutters was insulting.

I know other neighbors have submitted letters citing the changes to the proposed new landscape plan but PLEASE review this with a lens of replacing as many of the mature trees that did exist. There is a significant hole in the sky which once provided a habitat as well as shade, privacy and wind protection.

We are also concerned that a sport court will result in extra noise that will spill over into the evening hours accompanied by bright lights.

There was no need to cut down the existing mature trees for a "sport court". The area for that development was already open and available.

With concern for the landscape of our neighborhood,

Nancy & Ed Morris  
24 Paige Street  
Hingham
